Skills

- SolidWorks & SolidCAM (CAD/CAM)
- NI LabVIEW
- CNC Machining & Manufacturing
- 3D Printing Technologies
- Quality Control & Inspection
- Project LIBRA
- Microsoft Office Suite

Languages

- German: C1 (telc Hochschule C1 Certificate)
- English: C1 (IELTS Certificate)
- Arabic: Native speaker
- French: A2 (Basic proficiency)

About Me

I am currently pursuing a Master of Engineering (M.Eng.) in Mechanical Engineering with a specialization in Product Development and Simulation at Dortmund University of Applied Sciences. I am seeking a working student position in production engineering to apply and expand my technical and analytical skills.

Education

- **Master's degree in Mechanical Engineering** 2025 - Today
Dortmund University of Applied Sciences, Germany
Master project: Nuevo-35 Automotive Electronics
- **Postgraduate Coursework toward an M.Sc. in Production Engineering and Mechanical Design** 2022-2023
Tanta University, Egypt
Grade (German Notes System) : 2
- **Bachelor's Degree in Production Engineering and Mechanical Design** 2015-2020
Kafrelsheikh University, Egypt
Bachelor's Thesis: Design and Development of a 3D Printer with an Integrated Laser Engraver

Engineering Internship

PMSM Control Using Hybrid-Kit and One Eye (Dortmund University of Applied Sciences, 2025)

Commissioned, parameterized, and controlled a Permanent Magnet Synchronous Motor (PMSM) using Hybrid-Kit and One Eye for data acquisition, visualization, and system analysis.

Work experience

- **Mechanical Engineer** Mar 2022 — Jul2024
Qallins Steel Nail Factory
 - Managed machine maintenance and servicing.
 - Identified equipment issues and implemented preventive maintenance measures.
 - Minimized downtime and production disruptions in steel nail manufacturing.
- **Mechanical Engineer** Jun 2021 — Mar 2022
Samir's Workshop
 - Specialized in SolidWorks.
 - Operated CNC turning machines efficiently.
 - Improved manufacturing processes through workflow optimization.

Awards & Honors

- 3rd Place – MittelstandsMakerthon NRW (2026)
Awarded for developing an innovative concept in the field of surgical robotics. [Link](#)
